Anand P. Lalaji M.D. is the CEO of The Radiology Group, LLC established in 2006. His vision was to offer on and off-site sub-specialty radiology services using state of the art technology, and its proprietary one of a kind "supply chain interpretation model" called TRGASSIST. TRG is now serving 40 states and growing. He has been a board-certified radiologist since 1999. After earning his medical degree from SUNY Downstate Medical Center, he completed his internship at Chestnut Hill Hospital in Pennsylvania and his radiology residency at Albert Einstein Medical Center in New York. In 2004, he completed a radiology musculoskeletal (sports) fellowship at Wake Forest University Baptist Hospital. Dr. Lalaji is an active member of the Society of Skeletal Radiology and specializes in sports medicine diagnoses. In 2014, he founded Inside Injuries, Inc. the first truly predictive medical analytics firm. Dr. Lalaji has appeared on multiple media platforms, such as FOX, SiriusXM, RotoExperts.com, CBS Radio. Dr. Lalaji also formed the artificial intelligence company Inflo Health for follow up examination of radiology reports in 2022. Its software is being used within hospital systems throughout the United States. The Lalaji foundation was created in 2015 after the passing of Dr. Lalaji's father who had a passion for helping junior youth athletes become great human beings with character. The Lalaji foundation supports A5 heavily in the building of dedication, passion and real-life lessons through the sport of volleyball. His daughter Dhru Lalaji will be entering her 18s year at A5 as a DS/Libero and will be playing D1 volleyball in college at Wake Forest University in the ACC in 2024.
