As an assistant, my purpose is to aid and guide young players towards success. I will instruct to the best of my ability. I believe as a coach, our jobs are to help players get better as a team and to win. It is up to the player and how much they want to succeed in order to play at their full potential. I believe the advice I give stems from being a former collegiate athlete to being a coach, I see both sides of the spectrum and that is what can help tremendously.
